**Be Active and Involved**

*Please consider completing and sharing the following opportunities as you see fit:*

**Request for Members of Congress to Support Historic Agriculture and Climate Funding**

Recently, the US Senate released the *Inflation Reduction Act of 2022*, which includes a once-in-a-generation opportunity to boost conservation funding and provide farmers and ranchers the tools they need to combat climate change and protect their farmland. But Congress needs to hear from you NOW to ensure this funding remains in the final legislation and that the bill ultimately passes.

The Senate is preparing to vote on this package this week, so time is of the essence. Please write to your Senators TODAY to ask them to support the $21 billion in agricultural conservation funding that will provide more producers with the tools necessary to build resilience to extreme weather, while improving soil health, water quality, and profitability. It would also enable additional acres of farmland to be protected at a time when AFT estimates that we are losing 2,000 acres a day.

To take action, visit: https://farmland.salsalabs.org/inflationreductionact2022/index.html?eType=EmailBlastContent&eld=1ecf4c45-624e-41f6-9417-5bb293252566 and submit the minimal information to connect with your representatives.

**Help K-12 Schools Serve More New York Grown Food to New York Kids**

This year, we have an important opportunity to help schools across the state increase their ability to purchase and serve healthier, farm-fresh foods to our children. The New York Farm to School Purchasing Incentive and Grants programs, funded in the state budget, work hand in hand to bring more New York grown food to students in K-12 schools. These programs lead the nation in their ability to help schools buy more local food, thereby improving student health while building resilient local economies.

Research has shown that expanding the Farm to School Purchasing Incentive to include more school meals would make it easier for more schools to participate in the program and benefit New York farmers and the state economy. Best of all – it will ensure access to healthy local food for students throughout the school day!
With just one click on the “Take Action” button, enter your information and send a customizable letter directly to your state representatives in support of strong funding for these critical programs which improve the health of our children and support our state’s farmers - visit the website:

https://farmland.salsalabs.org/nyfood4nykidsvld2022/index.html?utm_source=Salsa&utm_medium=Email&utm_id=NYFood4NYKids%20Action%20Alert%20%232&eType=EmailBlastContent&eld=7aacef9f-5ae0-41d0-9fb3-895d0671c420&fbclid=IwAR1rm83GJJGaanXun0YrCCpT9VxujnI5cOSwkuUBIk-1CBueXs_tnYCJ2xc

**Support Farmland Protection and Farmland Access Programs**

Over 9 million acres of New York farmland form the foundation for the state’s $44 billion farm and food economy, but this irreplaceable land is under threat from development. Between 2001 and 2016, New York lost or fragmented over a quarter million acres of farmland, half of which was considered the state’s best quality farmland. People migrating into rural communities during the pandemic and accelerated solar development have amplified development pressure on farmland across the state.

At the same time, one-third of New York’s farmers are over the age of 65. They own or operate almost 2 million acres of farmland that will be at risk of being sold for development as farmers retire in the coming months and years. It is critical to support these farmers in transitioning their land to a new generation of farmers.

Act now to ask your state representative to support funding for New York’s Farmland Protection and Farmland for a new generation by visiting the following website:

https://farmland.salsalabs.org/AllianceforNYsFarmlandActionAlert2022/index.html?fbclid=IwAR23kXvNYqe8fCZ97Qu-8G3wv2LDnEV6VlywCKOhLIEepYo_kHVkZD51JEY

**Clean Watershed Needs Survey**

Does your community have water quality infrastructure that is outdated or in need of repair? The Environmental Facilities Corporation needs your help to ensure we can fund as many water quality infrastructure projects as possible in upcoming years. We need local governments and other eligible recipients to participate in the Clean Watersheds Needs Survey (CWNS). Your participation is critical to ensure New York State continues to receive a high level of funding for water quality infrastructure projects.

You can help by submitting your community’s needs and cost documentation to EFC. Together with other communities, your participation will help show the need for water quality infrastructure funding to federal lawmakers who decide how much money our state will receive.

Visit the following link to provide the requested documentation for your municipal water infrastructure needs:

Non-Grant Opportunities

**Drinking Water Source Protection Program (DWSP2)**
The New York State Departments of Environmental Conservation (DEC) and Health (DOH) have announced a new initiative to assist municipalities with assessing and supporting drinking water source protection programs. The Drinking Water Source Protection Program (DWSP2) is a state-run program created to assist municipalities with proactively protecting their drinking water sources. The goal is to help municipalities develop and implement their own unique drinking water source protection plan for the source(s) of their drinking water.

In order to do so, the State is looking for communities to work with a technical assistance provider (TA provider), free of charge, to develop a DWSP2 Plan for their source of drinking water. TA providers will work with the community every step of the way, using the DWSP2 Framework, to develop a community specific DWSP2 Plan. As a result of this program, participating municipalities can use their newly developed DWSP2 plan to start implementing protection measures.

Project C

Adopt a Park - With Adopt a Park, we will provide funding to support the revitalization of overgrown, underdeveloped or abandoned parks. This includes assistance for gathering spaces, seating and tables that use or incorporate reclaimed or sustainable materials. Our program also provides funds for items such as paint, brushes, brooms, lightbulbs, and even plywood.

Neighborhood Investment - With this initiative, we are helping revitalize our New York communities by providing financial assistance for projects focused on energy, education, and community development. The Neighborhood Investment Program welcomes all projects that promote the use of sustainable and energy-efficient materials or equipment. Nonprofit and faith-based organizations, cultural institutions and recreation centers are encouraged to apply — and may be provided with funds to help enhance our community.

SMB Technical Assistance Grant - The Small Business Technical Assistance Support Grants will provide funding for the essential resources that our economic development partners need, so they can continue to serve and support local businesses in our New York service territory.

MLB - MLBPA

Youth Development Foundation Grants

**Description:** Major League Baseball (MLB) and the Major League Baseball Players Association (MLBPA) joined together to form a charitable foundation with a shared goal of increasing participation in and expanding access to youth baseball and softball. The MLB-MLBPA Youth Development Foundation (YDF) has awarded millions of dollars in grants to community-based projects that encourage and empower youth through baseball and softball in underserved communities. In response to the rising costs to access youth sports and protect children’s rights in sports, YDF funds capital projects, programming, and education initiatives in the United States and internationally to ensure that all youth have an opportunity to play and learn through baseball and softball. Organizations applying for funding must have a strong sense of mission, proven track record of increasing access to affordable youth baseball and/or softball, committed leadership and
a dedicated staff, and understanding and knowledge of the community and population served.

Interested applicants must submit an initial Letter of Inquiry (LOI) with proof of secured or projected funding to be considered for an application. Proposals are accepted year-round and grant decisions are made on a quarterly basis.

For more information visit: http://www.mlbpa.org/programs

**Deadline:** Rolling. Applications are accepted throughout the year, and grant decisions are made by its Board of Directors on a quarterly basis.

**New York State**

**NYS Septic System Replacement Fund Program**

**Description:** The New York State Septic System Replacement Fund Program provides funding to replace cesspools and septic systems in New York State. This grant program’s goal is to reduce the environmental and public-health impacts associated with the discharge from cesspools and septic systems to improve water quality. The program targets cesspools and septic systems near priority waterbodies. Failing systems along the Beaver River, Lower, and tributaries could be eligible for this funding. The state is
providing Lewis County with funds to work with local property owners. Lewis County will provide grants to reimburse the property owner for up to 50% of the costs (up to a maximum of $10,000) of their eligible septic system project, include:

- replacement of a cesspool with a septic system; or
- installation, replacement or upgrade of a septic system or septic system components;
- installation of enhanced treatment technologies, including an advanced nitrogen removal system.
